America’s Cup Building ‘Veles e Vents’, Valencia, Spain

The America’s Cup Building ‘Veles e Vents’ (Sails and Winds) and accompanying park were the social focal point for the 2007 America’s Cup – the world’s premier offshore racing competition, staged in Europe for the first time in over 150 years. The Louis Vuitton Cup started in April 2007 and the climax, the 32nd America’s Cup match, commenced at the end of June 2007.
