to a digital design process that is supported by a wide range of digital tools and techniques, including 3D modeling, virtual reality, and digital fabrication.

The terrace is a key element of the house, offering a space for relaxation and dining. The large glass windows of the house provide a view of the pool and the surrounding landscape.

The flat has a very low ceiling (2.40m) and a large window (3.50m) that provides a lot of natural light. The flat is also very well insulated and has a very low energy consumption.
