

Brio54 have developed a series of prefabricated houses that are both attractive and affordable. Going for a modern look, the designers focused on the functionality of these homes and the daily requirements of today's families.

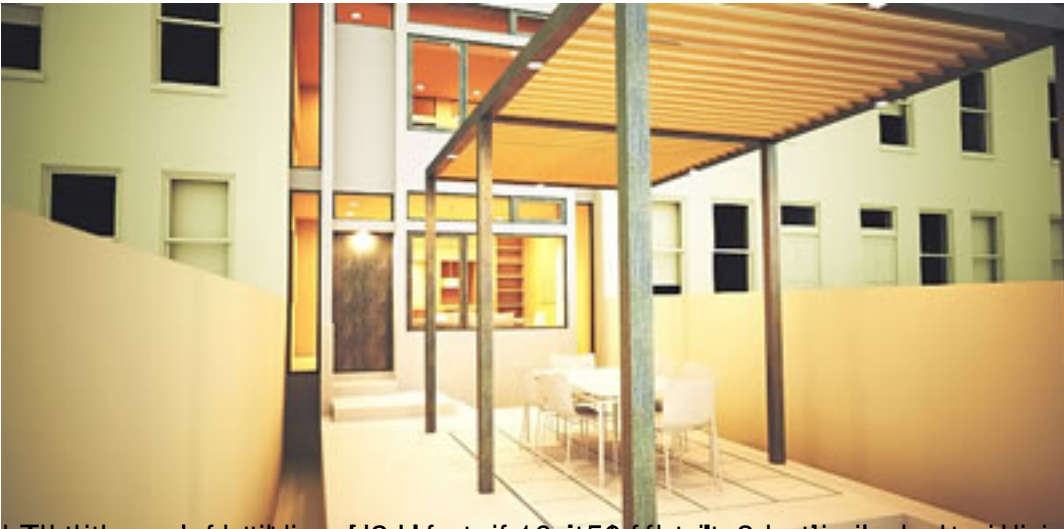

Along with design, functionality and affordability, Brio54's designs are environmentally friendly with a special focus on the conservation of natural resources and the creation of a non-toxic healthy living environment.

Affordable Prefabricated Homes by Brio54

Friday, 07 March 2008 04:45 - Last Updated Thursday, 26 June 2008 09:21

The best quality materials are used in the construction of these homes, ensuring a long and comfortable life. The homes are designed to be energy-efficient and sustainable, with a focus on reducing environmental impact. The homes are also designed to be affordable, making them a great option for those looking for a modern, high-quality home at a reasonable price.

With a combined floor area of 190 sqm, this 60 sqm 50 sqm home is a modern design for a penthouse,
