

□

**A very interesting interior where the combination of light, colors and textures contribute in filling the space and bringing it to life. The furniture with its shape and layout complements the architecture and reinforces its concept.**

House "V" was designed in order to satisfy the needs of a family. Applying communication between the common and individual rooms, the facilities and functions of the space have been connected into a single unit that creates a comfortable living area for a family.

# 3LHD - House V in Zagreb, Croatia

Wednesday, 11 June 2008 03:55 - Last Updated Wednesday, 11 June 2008 05:31

---

garage has a concrete floor and a large window. The house is built on a hillside and has a view of the city. The house is built on a hillside and has a view of the city. The house is built on a hillside and has a view of the city.

Strong architectural detailing: the dark, light glass and concrete of the interior, the white, gray and black parts

Photograph of the conference room, showing the long table and chairs, and the view of the living area and staircase. The room is located on the ground floor of the house. The table is 56'46" east.
