

Located in the center of Maribor, second largest city in Slovenia, OFIS arhitekti's recently completed project involved the transformation of an existing sport field into a football (soccer for us in North America) stadium that can host 12,500 spectators and all the related functions.

**Project Description** Following the competition back in 1998, construction only started in 2006.

*Other projects from OFIS arhitekti include: Fitness club with swimming pool, ...*
