

Established in 1984 in Vancouver, British Columbia, Busby Perkins+Will is an integrated architecture, interiors, and planning firm recognized for its leadership with clients in Corporate + Commercial + Civic, Healthcare, Higher Education, K-12 Education and Science + Technology.

With more than 70 staff in the Vancouver office and the bench strength of 1,200 personnel in 22 offices worldwide, Busby Perkins+Will possesses a diverse range of skills and talents—from industrial design to large-scale master-planning—enabling the firm to take on a wide variety of project types.

Busby Perkins+Will is considered one of North America's leading green practices with the largest portfolio of built green projects in Canada. The firm also researches, educates, and is heavily involved in the development of public policy and sustainability guidelines.

With almost 25 years of successful projects completed across market sectors, the firm has received more than 100 design honours. These include 6 Governor General's Medals in Architecture, 10 Lieutenant Governor of British Columbia Awards in Architecture, and the coveted Royal Architectural Institute of Canada Firm of the Year Award.
