

Randy Brown, FAIA, LEED AP

Lead Designer + Principal for Randy Brown Architects

Randy Brown founded **Randy Brown Architects** in 1993 with the mission to bring innovative and artistic architectural designs to his home state of Nebraska.

His ambition: to teach the Heartland that the architectural solutions to their pragmatic needs and functional requirements could also be creative and provoking. Fourteen years later, RBA continues to educate and inspire the public by weaving award winning architecture into their every day lives. Inspired by the rural landscapes and communities of Nebraska, Randy Brown and his team have developed a unique approach to architecture that couples the best of modern design with an appreciation of the natural landscapes and honest lifestyles of the Heartland. He is frequently recognized by the national and international design community resulting in numerous publications and over 100 design awards including 69 AIA awards, six of which are National. Randy Brown was honored to receive the **AIA National Young Architect Prize** in 2002 and made a **Fellow of the AIA** in 2006.
