

The Whistler Cay Residence is a 5000 sq. ft. single-family home located in one of Whistler's oldest residential neighborhoods, with spectacular views of [Whistler, Blackcomb, and other surrounding mountains](#)

The design incorporates the vernacular materials of the typical Whistler mountain home, and applies them with a contemporary language, using clean and simple gestures that are at once bold yet subtle. The extensive use of wood, primarily Douglas fir and Red cedar, provides warmth and context in the mountain environment, as well as continuity between interior and exterior.
